**TOP VIEW**

Scale 1:5; looking down (along -Z)

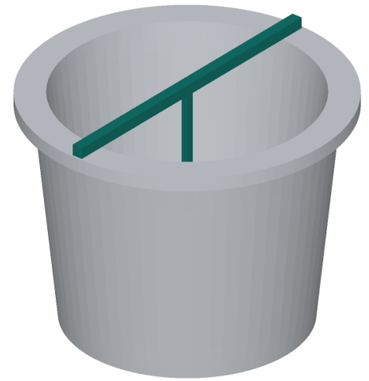

**FRONT VIEW**

Scale 1:5; looking at the front (along +Y)

**RIGHT VIEW**

Scale 1:5; looking at the right side (along -X)

**WHERE IT GOES**

This part in colour, its neighbours in grey

**HOW TO MAKE IT AND HOW IT FITS**

Crossbar 340 x 12 x 12 mm; it rests across the pot rim.
Stem 8 x 8 mm, 100 mm long below the rim, with the scale in liters generated from the filter shape: 0.1 L about every 1.7 mm, 1.0 L at 16.7 mm, 2.5 L at 42.6 mm below the rim.
Print the crossbar on the diagonal of a 250 mm bed, or in two halves glued; print the scale in a second colour.
Check: pour 1.0 L of water from a full, soaked pot; the level reads 16.7 mm within 1 mm.
